

## EXPORTS: Building Locally, Exporting Globally

Global Automakers' members are exporting record numbers of American-made automobiles from the U.S. to countries around the world. The production\* of these vehicles takes place at our members' 28 manufacturing facilities in America.

Exported nearly  
**440,000 vehicles**  
in 2015.

A central illustration of a globe with white grid lines. Several cars in various colors (orange, blue, green) are shown orbiting or positioned around the globe.

**Free Trade = More Exports**  
Free trade has helped to increase exports from our members' U.S. auto plants, strengthening the auto industry as a whole.

American-made vehicles were exported to more than **60 countries.**

\* Vehicles built in the United States using domestic and globally sourced parts.

**About Global Automakers** | The Association of Global Automakers represents international motor vehicle manufacturers, original equipment suppliers, and other automotive-related trade associations. We work with industry leaders, legislators, and regulators to create the kind of public policy that improves vehicle safety, encourages technological innovation, and protects our planet. Our goal is to foster a competitive environment in which more vehicles are designed and built to enhance Americans' quality of life.
