

R&D: Developing Technologies, Innovating Vehicles

Our members' research and development centers located across the country help design some of the most innovative, fuel efficient, and safe vehicles on American roadways.

Many aspects of vehicle design and testing are performed at our members U.S. R&D facilities.

About Global Automakers | The Association of Global Automakers represents international motor vehicle manufacturers, original equipment suppliers, and other automotive-related trade associations. We work with industry leaders, legislators, and regulators to create the kind of public policy that improves vehicle safety, encourages technological innovation, and protects our planet. Our goal is to foster a competitive environment in which more vehicles are designed and built to enhance Americans' quality of life.
