Automakers Applaud White House Action on Vehicle GHG Midterm Determination

Statement by John Bozzella, Global Automakers President and CEO

WASHINGTON, DC, MARCH 15, 2017 – “We welcome the Trump Administration's decision to return the greenhouse gas standards' midterm evaluation back to the process that was agreed to in 2012. We look forward to working with the Environmental Protection Agency, the National Highway Traffic Safety Administration and the California Air Resources Board on a review of the standards that is data driven and accounts for the needs of American consumers without locking in a prejudged outcome.”

The Association of Global Automakers represents international motor vehicle manufacturers, original equipment suppliers, and other automotive-related trade associations. We work with industry leaders, legislators, and regulators to create the kind of public policy that improves vehicle safety, encourages technological innovation, and protects our planet. Our goal is to foster a competitive environment in which more vehicles are designed and built to enhance Americans' quality of life. For more information, visit www.globalautomakers.org.
